

The PgUS Diversity Committee

PgUS established its Diversity Program in 2015 by unanimous vote of the Board. The mission of the Diversity Committee of the United States PostgreSQL Association is to promote an inclusive environment in the PostgreSQL community through outreach programs and the support of educational endeavors for underrepresented PostgreSQL users in the United States.

PgUS Members are encouraged to participate in the further development and growth of the Association through committee participation.

Interested members can complete the **Volunteer Introduction Form** on this page to apply for the Committee:

https://postgresql.us/get_involved/

Not a member yet? You can join here!:

<https://postgresql.us/becomeamember/>

In addition to outreach work, the Committee provides grants to pay for conference attendance costs (registration, hotel, airfare) to permit attendance at conferences which would otherwise be out of reach for the applicant.

Details and the application link are on this page:
